

AnnoTree

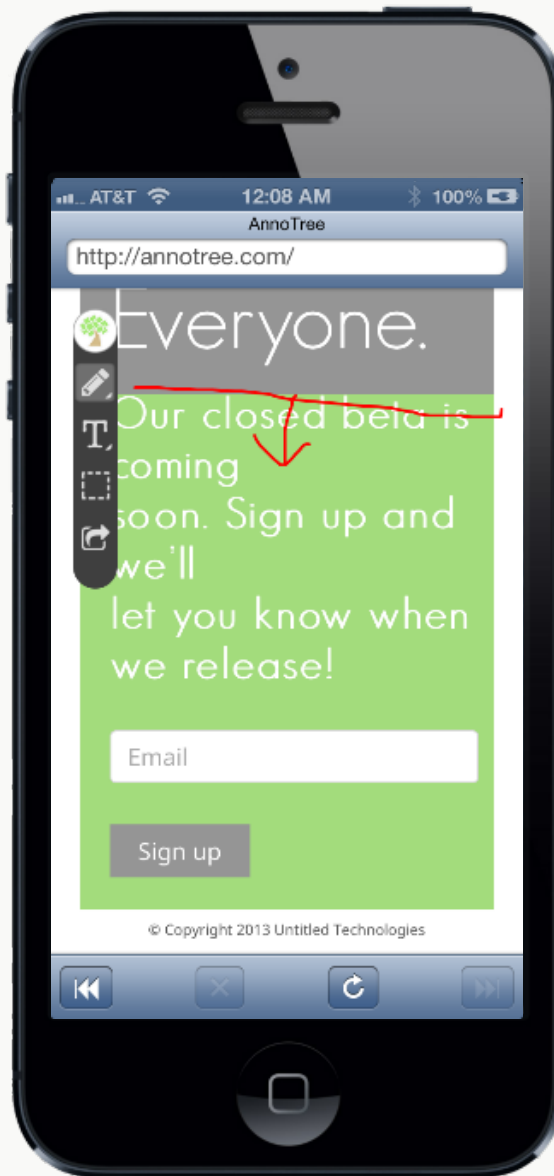

AnnoTree is a new way to **organize** and **collaborate** on design and testing for mobile applications

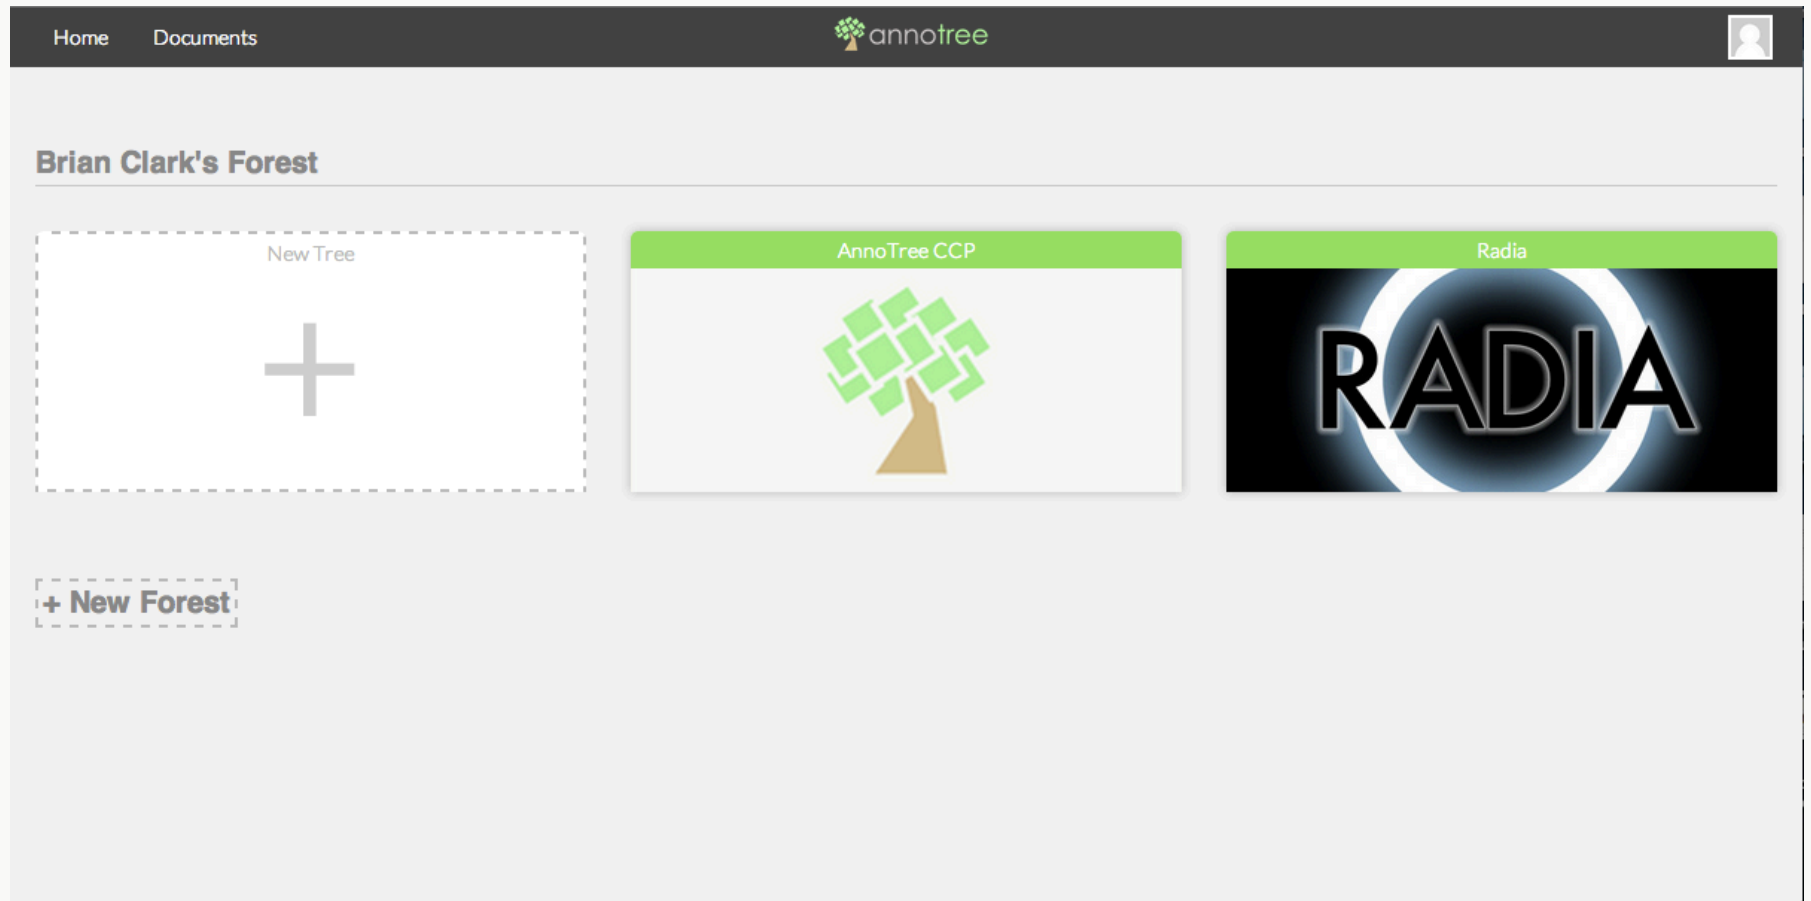

Install the AnnoTree SDK with one line

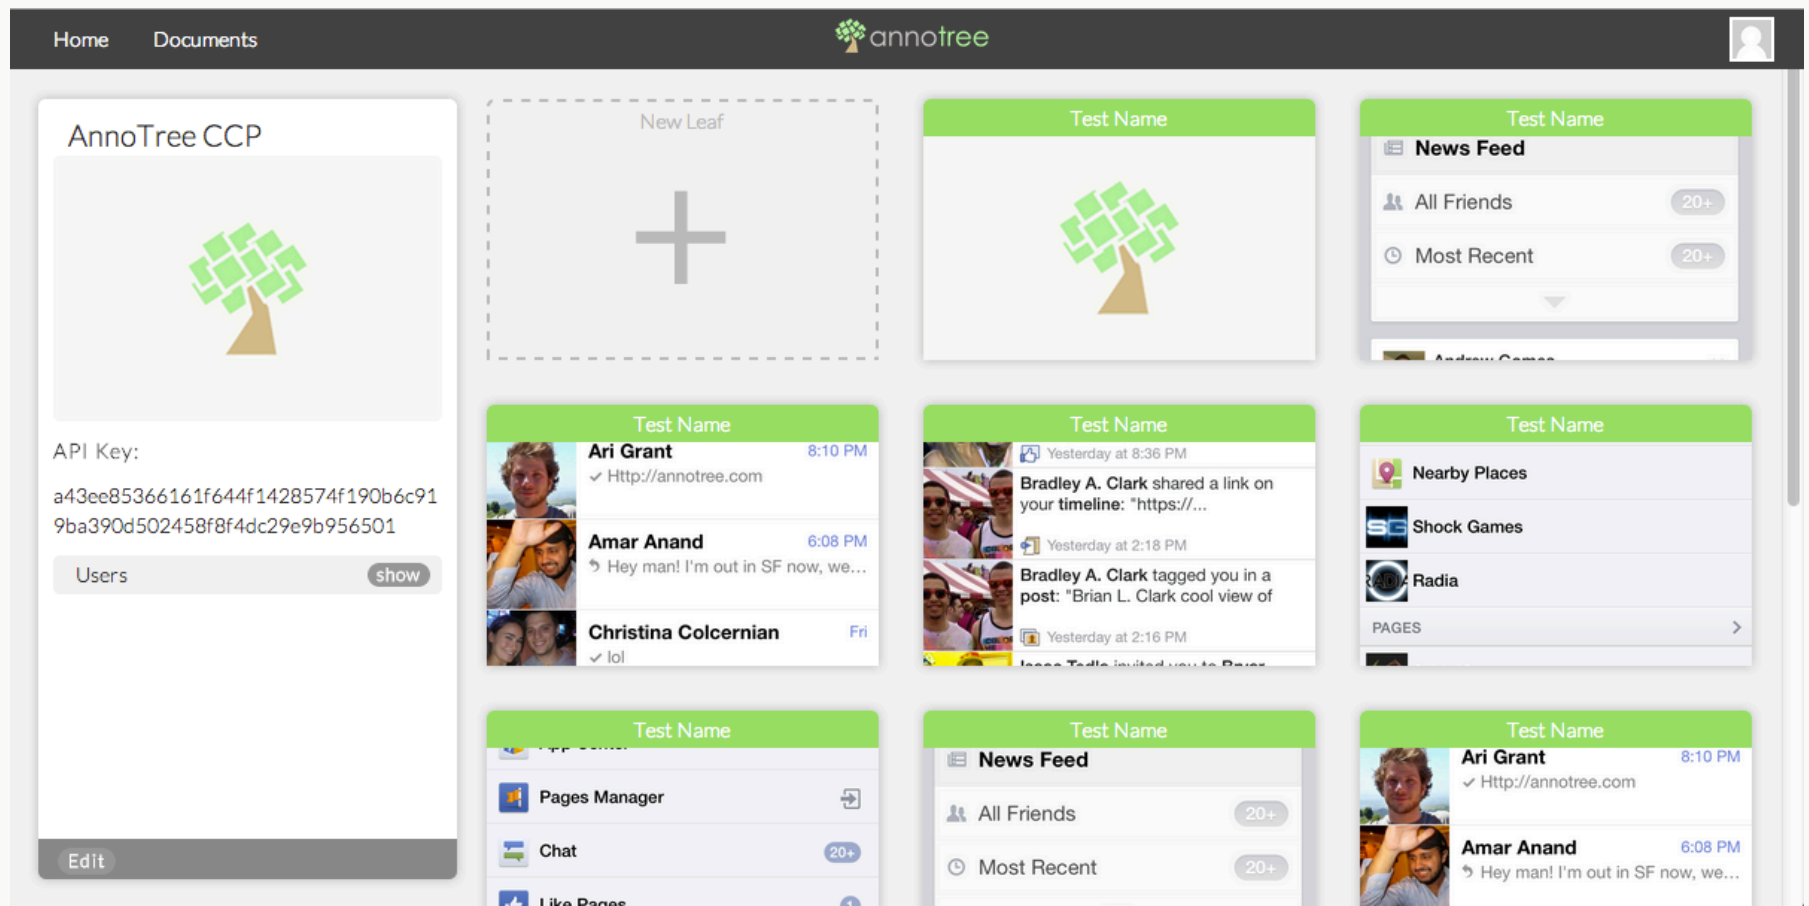

Tap it to open up the Toolbar

Can Annotate and send back these “leafs” to our collaboration platform

The forest screen has a collection of your Trees (applications)

On the tree screen you can organize all your leafs

We should probably center the updating, Matt?

 **Matt Price**
Maybe, Did some research and people liked it on the left

And collaborate on them with your entire team
